10. Processing of personal data

<p>The Population Information System and your personal identity code</p>	<p>If the Finnish Immigration Service grants you right of residence under the withdrawal agreement, your personal information is by law usually recorded in the <i>Population Information System</i>. You will also be issued a <i>personal identity code</i> if you do not yet have one.</p> <p>The Population Information System is Finland's electronic population register. Its contents are available to all Finnish authorities. Some of the data can also be disclosed to private persons or entities. The register is kept by the Digital and Population Data Services Agency. The personal information in the register is stored permanently.</p> <p>A personal identity code is a means of identification used in Finland. No two persons can have the same personal identity code. The code consists of 11 characters and is based on your date of birth and your gender (example: 131052-308T). Being issued a personal identity code does not in itself give you any rights or obligations in Finland. You will usually need it when you contact public authorities, because it gives them access to your information in the Population Information System. Also, for instance employers, banks or telephone operators may need to know your personal identity code.</p> <p>At this stage, the following personal data will be recorded in the Population Information System: your name, date of birth, gender, citizenship, native language, address and occupation.</p>
