You will also be issued a <i>personal identity code</i> if you do not yet have one.</p> <p>The Population Information System is Finland's electronic population register. Its contents are available to all Finnish authorities. Some of the data can also be disclosed to private persons or entities. The register is kept by the Digital and Population Data Services Agency. The personal information in the register is stored permanently.</p> <p>A personal identity code is a means of identification used in Finland. No two persons can have the same personal identity code. The code consists of 11 characters and is based on your date of birth and your gender (example: 131052-308T). Being issued a personal identity code gives you no rights or obligations in Finland.
