RESIDENCE PERMIT APPLICATION FOR AU PAIR STATUS

This application form is for you if you are intending to travel to Finland to work as an au pair in a family.

The purpose of an au pair position is to provide a young person (aged 17 to 30) an opportunity to become acquainted with the language and culture of the target country in exchange for performing light housework duties. The purpose of an au pair position is not to gain a household employee. Domestic servants must use the form OLE_TY1 to apply for a residence permit. Generally, prospective au pairs are required to have studied or taken an interest in Finnish or Swedish language or culture, for instance Finnish history or politics. The working hours of an au pair must be set so that he/she will have the opportunity to take classes in Finnish or Swedish while in Finland.

The maximum duration of residence on au pair status is one year.

Carefully fill in and sign the application. Incomplete information will delay the processing of the application and may lead to its rejection.

An application may be submitted to a Finnish diplomatic mission abroad or at a service point of the Finnish Immigration Service in Finland. A processing fee will be collected when the application is submitted, according to the Decree on charges. Read the instructions for filling in the form at www.migri.fi.

Clarifications that you need to append to your application are listed in Section F of this form.

10 Population register and personal identity code

When you are granted a residence permit by the Finnish Immigration Service, your personal information will by law in most cases be recorded in the *Population Information System*. You will also be issued a *personal identity code*.

The Population Information System is Finland's electronic population register. Its contents are available to all Finnish authorities. Some of the data can also be disclosed to private persons or entities. The register is kept by the Digital and Population Data Services Agency. The personal information in the register is stored permanently.

A personal identity code is a means of identification used in Finland. No two persons can have the same personal identity code. The code consists of 11 characters and is based on your date of birth and your gender (example: 131052-308T). Being issued a personal identity code gives you no rights or obligations in Finland. You will usually need it when you contact public authorities, because it gives them access to your information in the Population Information System. Also for instance employers, banks or phone operators may need to know your personal identity code.

At this stage, the following personal information will be recorded in the Population Information System: your name, gender, date of birth and your citizenship as well as your mother tongue, address and occupation.

More information on the processing of personal data recorded in the Population Information System can be found in the Data Protection Description available at www.dvv.fi/en/data-protection. You may also request a paper copy from the Finnish Immigration Service or from the Finnish mission (embassy or consulate) to which you return this application.
